## WILL MAYFIELD BEGINS WINTER TERM ON SEPTEMBER 4

The work of evening students for the winter term of W. M. C. will begin Monday, September 4, and students will begin actual work Wednesday.

There are two new members of the faculty, Miss Crag, instructor in English and Prof. Rusty, instructor in mathematics and athletic director.

The school expects the best year in its history. As usual dormitory has undergone considerable change and much work has been done there. The boys' dormitory has been completely cleaned and renovated and everything will be in ship shape for the opening of school.

Mrs. J. A. VanAmburg will be matron in charge of the boys' hall this year. The board could not have done better than to have employed Mrs. VanAmburg for this responsible position.

Preparations are being made for the most thorough and systematic training in physical culture ever attempted. There will be nothing omitted that is necessary for the success of the institution.

The school is looking forward to a large enrollment for the coming year. Students have already begun to arrive and reservations are being made at the dormitories. The board of trustees is putting forth every effort to make the institution efficient. The people are rallying as never before. This means Mayfield will be a great school.

## FAMILY REUNION

The past week has been the annual home coming period for the children of Judge and Mrs. J. M. Zimmerman of this city. Those included in the visit up to date are: Mrs. J. R. Talley, Mountain Grove, N. J. Burns and family, Glen Allen, C. C. Zimmerman, Columbia, Dr. and Mrs. C. S. Peary, Louisville, Ky., J. F. Zimmerman and family, New York, N. Y., Attorney and Mrs. Homer Williams, Marble Hill and Mrs. C. E. Blair, Elvins. In addition to the usual enjoyable features of such a home-coming there was lively interest and considerable rivalry manifested in various indoor games and in such outdoor sports as croquet and swimming. Strangely enough it was the in-laws who won out in all the contests, much to the consternation of the Zimmermans. Superiority in all indoor games was conceded to Dr. C. S. Peary, while in the major outdoor sports Attorney Williams starred at croquet and Mrs. J. F. Zimmerman at swimming.

Judge and Mrs. Zimmerman look forward every year with keen pleasure to this visit, and this year particularly seem to enjoy it almost thoroughly. A round of visiting to relatives out of town was enjoyed including a Sunday visit and dinner at the home of Mr. and Mrs. D. C. Zimmerman (Uncle Dan and Aunt Mary) two miles west of Glen Allen a visit and a dinner which cannot be forgotten in a whole year.

Several of the children have returned to their homes this week and within a few days those remaining expect to conclude their visit.

## SCHOOL TEACHERS HAVE AN INTERESTING MEETING

There were a great many people in Marble Hill last Friday and Saturday, attending the directors' and school teachers' meeting. There seemed to be an unusual interest among the people. Many car loads from the remote parts of the county came to town to attend the meeting. They stuck to their business from the opening of the meeting to adjournment.

There were a number of good speakers and much good was derived from the meeting.

It is further reported that some of the contestants for pugilistic honors did some hiding out to prevent further encounters. It is understood that white mule was the principal aggressor in the fight. The work on the east and west road is progressing nicely. The managers and overseers and men appear to be gentlemen who understand their business. It is real interesting to watch them work. It is much different to any road work that most people in this county have seen. People in this county who have not seen the work on this road should take time to visit the workers.
